ALL 'FRISCO APPROVES

The Methods of Street Car Strikers

Mayor Schmitz' Course Also Commended

No Violence has Been Used So Far.

SAN FRANCISCO, April 22.—Last night the United Railway announced that an attempt will be made today to operate the Fillmore-street line. At the company's request 50 policemen were sent to the barn, but had orders not to ride on the cars. Early this morning a very closely covered wagon deposited seven men and provisions for a continued stay at the Turk street barn. They were induced by an offer of twenty-five dollars to take out a car. Five of the seven started with the car, which was also boarded by a committee from the strikers to entreat the men to join the union. After a trip of three blocks the car returned, five of the men having joined the union. At nine another left on the Ellis street line, manned by four men. This also was boarded by strikers, who are using peaceful means to induce the men to quit.

The suspension of street car traffic remains practically complete on all lines owned by the United Railways, and the mail cars pursue their solitary way over the otherwise deserted lines. The refusal of the mayor to permit union men or special detectives to carry arms is generally approved. It is thought it will bring about a speedy termination of the strike. All the employees of the California street line are now enrolled as members of the union with the consent of the management of the road. The gross earnings of the United Company amount to an average of twelve thousand per day. With no receipts the company loses not less than four thousand interest and fixed charges per day during the continuance of the strike.

Later—with cheers from the street crowds, the drivers on the stub California street horse car line laid down their reins at 11, joining the ranks of the strikers. Attempts to operate the car system this morning were confined to sporadic attempts to run cars over the Turk and Ellis street lines. One car made three trips, the conductors of the crew deserting at the end of each trip. At Ellis and Market, a mob of five hundred attacked a car with the intention of wrecking it, but were dissuaded by members of the strikers' peace committee who accompanied the car. The general situation is unchanged. There are no disturbances. The mayor this morning refused another request from the United Railways Company for a detail of policemen on each car. The mayor will issue a formal communication this afternoon, stating that the strike is orderly conducted, and police are not necessary.

Is a Modern Goliath

A modern Goliath, in point of size, at least, was a passenger on Monday night's overland from Portland to San Francisco, having come to the coast from New York City. The man's name was not learned, but he certainly was a whopper. He measured 7 feet, 10 1/2 inches in height, weighed 367 pounds, and the length of his feet was 22 inches. He was probably en route to a San Francisco museum. J. M. Woodruff, the well-known Salem commercial traveler, chanced to be a passenger on the same train to Salem. Now Jim has always prided himself on being a large and handsome fellow with 231 1/2 pounds overweight to his credit, but when he saw this imported monster he unhesitatingly sought the rear seat in the Pullman.

HANNA MAKES GRAVE CHARGES

Against Governor Wood of Cuba --News of the National Capital.

WASHINGTON, April 22.—Senator Hanna says he will now take steps to show the world that his friend, E. H. Rathbone, is an innocent man, deliberately prosecuted by Governor-General Wood. He says he has documentary evidence to prove that Wood swayed the court that convicted Rathbone.

A New Secretary. WASHINGTON, April 22.—President Roosevelt today appointed Benjamin Baris, of New Jersey, to succeed O. L. Pruden, as assistant secretary to the president.

Smith's Court-Martial. WASHINGTON, April 22.—It is announced by the war department that the court-martial of General Smith, in the Philippines, being under the direct orders of President Roosevelt, it will not be subject to a review by General Chaffee. The war department officials consider this action particularly significant, inasmuch as it allows Chaffee to prefer charges against Smith, and, if necessary, to appear as a witness for or against that officer. No attempt is made in the war department to hide the fact that Smith is in a serious predicament, and that the result of the trial may mean the end of his career as an officer in the army.

The breach between the war department and the senate military committee was widened today when Chairman Hawley introduced a bill to increase the efficiency of the army. The measure is essentially different from that prepared by Root. It eliminates the general staff system and makes the lieutenant general commander of the entire United States army in fact as well as in name.

Fire Today In Portland

PORTLAND, Or., April 22.—The sash and door factory of the Hand Manufacturing Company was damaged to the extent of several thousand dollars by fire today.

LEOPOLD IS NOT TALKING

Refuses to Intervene for Peace.

BRUSSELS, April 22.—The Chamber of Commerce today addressed the King, asking for royal intervention in the suffrage dispute in the interest of trade. The King replied: "It is the duty of the government of the King, with its eyes fixed on present and future loyalty, and observant of constitutional rules to follow the policy which it deems most useful for the well being and tranquility of the country."

STILL HOT IN KANSAS.

Need of Rain So Dire That Catholics Are Saying Prayers Daily. KANSAS CITY, April 22.—The hot south wind that swept over the better

LONDON WAS IN DANGER

Of Being Destroyed By Flames.

Fire Finally Controlled After A Hard Fight

Loss Will be Over Ten Millions.

LONDON, April 22.—A fire which started at Barbican, E. C., last night and which at one time threatened to become the greatest fire London has ever seen, was subdued early this morning. Over fifty firms suffered a loss of over a million dollars.

A dispatch of last evening says: London firemen under Commander Wells fought a conflagration on Barbican, E. C., today. The fire was one of the biggest since the famous Cripplegate fire of November, 1897. It began in MacQueen's hat manufactory and spread rapidly to the other side of the street, the winds fanning the flames and the burning embers falling in all directions. Three hundred firemen and forty engines were engaged at midday in preventing the further spread of the flames. Owing to the danger that the Aldgate street station might catch fire, traffic was suspended on the Metropolitan Railway. The flames were visible for many miles. The guests of the Manchester Hotel, adjacent to the Aldgate station hurriedly left the building. Altogether three large warehouses on the south side of Aldgate avenue, two on the north side and buildings on both sides of New Zealand avenue were gutted. Twenty firms and shops were burned out. Two firemen were injured.

BONES IN THE WRECK

City of Pittsburg Victims Still Entombed.

CARLO, Ill., April 22.—As time passed, and no bodies from the burned steamer City of Pittsburg are recovered, the belief is strengthened in the theory that a majority of those who perished were burned to death, rather than drowned. Men who have been to the scene of the wreck say bones can be seen protruding from beneath the network of iron rods, boilers and smokestacks. It may be several days before any attempt is made to recover the corpses. Only three bodies have been recovered. Almost all the survivors of the disaster have left the city.

URGES WAR ON MORGAN.

LONDON, April 22.—The St. James Gazette today urges war upon the Morganization of the shipping interest, and says direct trade with Canada should be fostered.

FIGHTING THE BEEF TRUST.

ITHACA, N. Y., April 22.—A movement to destroy the beef trust by means of a chain of letters has been started here. The main feature is to ask persons to abstain from eating meat for one week beginning May fifteenth.

Former Salem Boy Is Dead.

Friends of the family in Salem today received news of the death, at San Raphael, California, at 9:10 o'clock this morning of Frank Sweetser, the youngest son of Mrs. Phil Metcalf, of Portland. Frank was about 19 years of age, and his death was very sudden, resulting from spinal meningitis. The remains will probably be brought to Portland for burial.

Gave Liquor to a Minor.

Andrew Horner was today received at the Marion county jail, where he will be held until the circuit court meets, in default of \$300 bonds. Horner was held to the circuit court by Justice Quencer, of the Stayton justice court, on the charge of giving liquor to a minor.

Articles of Incorporation.

C. E. Davis, M. J. Guthrie and J. P. Phyl, of Union, today incorporated the Keystone Consolidated Gold Mining Company, with a capital stock of \$1,000,000.

A. W. Prescott, local correspondent for the Portland Oregonian, went to Portland this afternoon, where, for about two weeks, he will assist on the local reportorial force of that paper. In Mr. Prescott's absence, John W. Cochran will have charge of the Oregonian work here.

FOREIGN FACTS.

It has been estimated that it will require 85 men working every day until 1917 to unearth the entire ruins of Pompeii.

At Focent, in the Belgian Ardennes, there is a grove of trees so thoroughly devastated by the silk worms that not a single leaf has been left on the trees. Jury trials are going out of favor in England. Out of 494 cases in the king's bench at the present Trinity session 162 are to be tried without a jury.

A Pollak gamekeeper having remarked that he hoped the cholera and the plague might kill all the Germans on earth is now being prosecuted in the courts. The complaint comes from Venice that venetian foreigners have bought most of the fine palaces on the Grand canal and have proceeded to restore them to ruin.

ROYAL Baking Powder

Made of Pure Grape Cream of Tartar. Safeguards the food against alum.

BEEF SOARING SKYWARD

Chicago Prices Jumped Again Today.

CHICAGO, April 22.—Beef advanced a quarter to a half cent today, and retailers fear there will be no relief until grass cattle come into the market during June. The daily arrival of a large number of this class of cattle will glut the market, and force prices down.

England is alarmed over J. P. Morgan's ship trust. They fear it will weaken British strength in time of war.

DAWSON CLEAN-UP BEGUN

Will Yield Thirty Millions This Year.

TACOMA, April 22.—Dawson telegrams state melting snows have formed streams sufficient to permit clean-up operations. The washing out of gold commenced last week, and will keep up for two months. During winter the greatest dumps in the camp's history have been thrown up on the banks of the creeks, insuring an aggregate clean-up at \$30,000,000. The flow of gold toward Puget Sound will commence in May. The Ottawa government last week ordered the Klondike authorities to throw open for entry 4000 lapsed and abandoned claims, which are withdrawn from the Treadgold concession. The gold commissioner's office is rushed with men recording abandoned claims which they have staked.

Morgan's latest scheme is an opposition to Charles G. Yerkes' underground system of rapid transit in London.
